“Given our demographics, developing literacy skills in English and Spanish is incredibly important, promoting the frequency of families reading is incredibly important.”

LEADERS FROM A LEADER

>> Leverage Technology
Know exactly what you want to do with a 1-to-1 program, how the technology will support those goals, and what supports you need to give students and teachers to use it meaningfully.

>> Set Clear Goals
Articulate your goals and empower the educators in your district to focus on those intently. Avoid taking on too many initiatives at once.

>> Delegate Responsibility
It’s not your role to do everything. If everyone on your team plays a part, you create momentum that’s sustainable.
